## PERSONAL PROFILE

A highly motivated and results-driven Software Engineering graduate from the University of Portsmouth, passionate about developing innovative, efficient, and user-centred software solutions. My academic background demonstrates consistent excellence, achieving First-Class results and demonstrating proven leadership in every group project. Skilled in full-stack development, database design, and usability engineering, I bring a unique blend of technical expertise and creative problem-solving. My background also includes over two years of medical studies at Kharkiv National Medical University (Ukraine), where I developed strong analytical and problem-solving skills before pivoting to Software Engineering. I am eager to contribute to a forward-thinking organisation where I can apply my skills, grow professionally, and deliver meaningful impact through technology.

## EDUCATION

- **University of Portsmouth** – BSc (Hons) Software Engineering | Expected Graduation: 2026
- **International College of Portsmouth** – Foundation Degree in Science: Computing | 2022 – 2023
- **Kharkiv National Medical University** – Medicine | 2019 – 2022
- **Prempeh College** – High School Certificate | 2016 – 2019

## KEY SKILLS

- **Programming Languages:** Python, HTML, CSS, JavaScript, SQL
- **Problem Solving:** Developed custom algorithms and optimised systems
- **Leadership:** Group leader in multiple academic projects
- **Teamwork:** Collaborated in diverse teams to deliver high-quality projects
- **Communication:** Strong written and verbal communication skills in English, Twi, and Sefwi.

## PROJECTS AND CONTRIBUTIONS

- **UniStress – Student-Centric Web Application (2025–2026)**  
Developing a full-stack Flask web app to help students track and manage stress through personalized dashboards and real-time data visualization.
- **FitMind – Exercise & Stress Tracker (2024)**  
Built a wellness web app using Flask and AJAX with live chart updates and tailored recommendations.
- **Power Plant – Hacking for Ministry of Defence (H4MoD) Project (2024–2025)**  
Led a team project designing hybrid power concepts to improve efficiency and sustainability in military command posts.
- **Smart Home Management System (2023)**  
Created a Tkinter-based desktop app for controlling household devices from a single interface.
- **Tutoring Service Database (2023)**  
Designed a PostgreSQL database with efficient data storage, retrieval, and reporting capabilities.

## **WORK EXPERIENCE**

- **M. Gyamprah Enterprise – Family Business Support, Ghana**  
*February 2022 – December 2022*  
Contributed to administrative and digital operations within the family enterprise, assisting with record-keeping, client coordination, and small-scale logistics. Gained valuable insight into business management, teamwork, and organisational responsibility.
- **Housekeeper – The Queens Hotel, Portsmouth**  
*Part-time | July 2023 – July 2024*  
Delivered high guest satisfaction through consistent service quality, teamwork, and attention to detail.
- **Cruise Marshall – SCH, Portsmouth**  
*Part-time | August 2025 – Present*  
Assist cruise passengers with embarkation, disembarkation, and luggage handling to ensure smooth operations while developing strong teamwork and customer service skills.
- **Housekeeper – Brittany Ferries, Portsmouth**  
*Part-time | April 2025 – June 2025*  
Maintained cleanliness standards on board ferries and supported team efficiency in a fast-paced service environment.
