AUGUSTINE GYAMPRAH

PROFESSIONAL SUMMARY

First-Class Software Engineering graduate from the University of Portsmouth, with an 84.8% average and hands-on experience developing web applications using JavaScript, React, Node.js, Express and PostgreSQL. Designed and deployed a full-stack student wellbeing platform integrating REST APIs and Fitbit data through OAuth 2.0, earning 82% for my final-year dissertation. Combines strong problem-solving and analytical skills with a focus on building reliable, user-centred software. Eager to contribute technical expertise, learn from experienced engineers and deliver impactful solutions within a forward-thinking development team.

WORK HISTORY

Junior software developer, 02/2023 to 01/2026
M. Gyamprah Enterprise - Bibiani, Ghana

- Built and maintained web pages for a product catalogue of over 100 items using HTML, CSS and JavaScript, keeping details and prices current as stock changed.
- Created order and quote request forms so customers could contact the business directly.
- Fixed layout and display issues so pages worked on mobile phones and slower internet connections.

Business Integration Engineer Intern, 03/2022 to 11/2022
M. Gyamprah Enterprise - Bibiani, Ghana

- Entered weekly sales reports from the fuel station POS system into the accounting records.
- Compared purchase orders, invoices, warehouse and production records, flagging discrepancies to staff for correction.
- Documented the weekly reporting process so others could follow it.

OTHER EXPERIENCE

Cruise Marshal (part-time), SCH Cruise Operations, Portsmouth, 08/2025 to present

- Coordinate passenger boarding and disembarkation with security, baggage and terminal teams, communicating by radio to keep turnarounds on schedule during peak periods.

Housekeeper (part-time), The Queens Hotel, Portsmouth, 07/2023 to 07/2024

SKILLS

Technical & Professional Skills

- **Programming & Development**: JavaScript, Node.js, Express, Python, HTML, CSS
- **Databases**: PostgreSQL, MySQL, SQL
- **APIs & Integration**: REST API development, OAuth 2.0
- **Tools & Collaboration**: Git, GitHub, Jira, Agile methodologies
- **UI/UX & Design**: Figma (prototyping, wireframes, components)
- **Data Analytics & Visualisation**: Python libraries for data cleaning and analysis, and Power BI

Transferable Skills

- Teamwork
- Leadership
- Communication
- Problem-Solving

- Prepared guest rooms to hygiene and presentation standards, reporting maintenance issues to supervisors so rooms were ready for each check-in.

PROJECTS

UniStress, Student Wellbeing Web App (Final Year Dissertation, graded 82%)

- Designed, built and deployed a full-stack student wellbeing platform using Node.js, Express and PostgreSQL, with REST APIs and production deployment on Render.
- Implemented live Fitbit integration using OAuth 2.0 with secure token refresh; project proposed for academic publication.

PostgreSQL Database Schema (coursework)

- Designed a PostgreSQL database schema for a tutoring service with efficient data storage, retrieval and reporting.

ELE, E-commerce Website (personal project)

- Built a nine-page e-commerce site outside my degree using vanilla JavaScript, HTML and CSS, live at ele-project.onrender.com.

EDUCATION

Foundation Degree in Science, **Computing**, **01/2023 to 08/2023**
International College of Portsmouth - Portsmouth

Bachelor of Science, **Software Engineering - First Class Honours**, **09/2023 to 07/2026**
University of Portsmouth - Portsmouth, England

M.D., **Medicine**, **12/2019 to 02/2022**
Kharkiv National Medical University - Ukraine
Studied medicine for 2.5 years until the war in Ukraine ended my studies; moved to the UK to pursue software engineering.

Senior High School, **WASSCE**, **10/2016 to 06/2019**
Prempeh College - Ghana

AWARDS, ACCOMPLISHMENTS, AND HONOURS

First Class Honours, BSc Software Engineering (84.8% average), University of Portsmouth, 2026.
Final year dissertation project (UniStress) graded 82% and proposed for academic publication.
